ARTICLES / ARTICLES

Frederick A. Cook, C. Elissa Lynn, and Kevin W. Hall Cross-strike potential-field anomalies in the Canadian Cordillera 1

Wayne Powell Greenschist-facies metamorphism of the Burgess Shale and its implications for models of fossil formation and preservation 13

Diana Meza-Figueroa, Joaquin Ruiz, Oscar Talavera-Mendoza, Fernando Ortega-Gutierrez Tectonometamorphic evolution of the Acatlan Complex eclogites (southern Mexico) 27

Michèle Asgar-Deen, Russell Hall, Jim Craig, and Cynthia Riediger New biostratigraphic data from the Lower Jurassic Fernie Formation in the subsurface of west-central Alberta and their stratigraphic implications 45

Patrick Lajeunesse and Michel Allard The Nastapoka drift belt, eastern Hudson Bay: implications of a stillstand of the Quebec– Labrador ice margin in the Tyrrell Sea at 8 ka BP 65

Stephen J. Piercey, James K. Mortensen, Robert A. Creaser Neodymium isotope geochemistry of felsic volcanic and intrusive rocks from the Yukon–Tanana Terrane in the Finlayson Lake Region, Yukon, Canada 77

Leanne J. Pyle, Michael J. Orchard, Christopher R. Barnes, and Michelle L. Landry Conodont biostratigraphy of the Lower to Middle Devonian Deserters Formation (new), Road River Group, northeastern British Columbia 99

P.V. Villard and M. Church Dunes and associated sand transport in a tidally influenced sand-bed channel: Fraser River, British Columbia 115
